

Exhibitor Safety Plan – Mariners Centre

Master Promotions Ltd. and the Mariners Centre have worked diligently with the Province of Nova Scotia to develop a safe operational plan for exhibitions at the facility. As a result, we will have protocols in place during the Eastern Canadian Fisheries Exposition to ensure a positive and safe experience for everyone involved. Below you will find some information on our safety plan for the event. If you have questions that are not answered here, please reach out to a member of our team at any time!

- Participation will be from Atlantic Canadians only – including exhibitors and attendees.
- Masks will be mandatory at all times within the building.
- The floor plan will be modified to allow for one-way traffic and wider aisles.
- For bulk booths, show management will help ensure your floor plan is compliant. For smaller booths, there will be a protocol provided for you to arrange your booth and – as always – we’ll be there to help you.
- Additional event staff will be on duty to assist with traffic flow and monitor social distancing.
- Attendees will flow through the show in social distanced cohorts of no more than 200 people.
- Contact tracing will be strictly enforced by show management.
- Hand sanitizer stations will be located throughout the facility. Exhibitors are also asked to provide their own hand sanitizer for attendees to use at each booth.
- Attendees will be permitted into your booth one “bubbled group” at a time. We ask that you please clean high touch areas frequently.
- We will have lots of show staff available to direct traffic, answer questions, and help attendees feel safe and informed.
- And of course, regular hand washing, sanitization, and social distancing will be promoted with signage and floor decals.
